# BABY GABRIEL® WOOD BURNING STOVE

MODEL NUMBER HF217-SE

## Compact, clean burning and competitively priced

This classic looking 'Defra Approved' cast iron wood burner is a compact version of one of Britain & Ireland's most popular stoves. Packed full of user-friendly features and benefits it has all of the traditional good looks of its best-selling big brother, the Gabriel®. Being little, makes it the ideal solution for the smaller room and fireplace. where its 4.6kW output can still pack a powerful punch even on the coldest Winter day. Grown-up features include an externally operated riddler and a very efficient Airwash system to keep the glass clear throughout any type of burn cycle. The Baby Gabriel has to be the hot favourite if you're looking for a superior built traditional cast iron stove that's not only practical and economical to run but also represents truly outstanding value for money.

## The Baby Gabriel's key features and benefits

- CE tested in the United Kingdom to strict BS EN 13240 standards
- DEFRA Smoke Exempt Appliance for burning wood in Smoke Control Areas
- Suitable for burning approved smokeless fuels
- Air Wash keeps the glass clean and provides a continuous view of the fire
- Premium quality construction – nearly 80kg (12.5 stone!) of the finest quality, best-in-class casting for longer lasting life and superior radiated heat
- Easy to remove baffle plate for simpler and quicker cleaning
- Top or rear fitted 125 mm (5") flue option
- Choice of traditional matt black finish or high gloss Black enamel
- Five year bodywork guarantee for complete peace of mind
